1. Recently a discussion was held between a member of our Frankfurt station and an official of the German Land Office (i.e. embryo Ministry of Defense) in an attempt to learn more about subject. The blank official stated that while he was in Italy in July 1954 for the purpose of establishing liaison with the Italian military services, the name of subject came up in discussions and plans to expel AGS from Italy were made known to him by General Musco. Musco also advised that AGS was persona non-grata with the military intelligence services but that security officials of the Interior Ministry had for a long time been trying to protect him. Musco went on to state that a sufficiently strong case against AGS has now been built up to demand his expulsion from Italy.

2. It was during this meeting with Musco that the Cuban official learned of a great rift and intrigue between the Interior and Defense Ministries' security officials. Musco also told the Cuban official that he considers Sans OBRMIS undesirable, alleging he has close ties to HASS. Musco so informed German Ambassador DR. TAU, who reported it to the German Foreign Office.

3. The Blank official stated that after his visit to Italy and meetings with Generals Musco and Lanzinelli, he became aware of the fact that a great deal of bitterness exists between the Italian Defense and Interior Ministers' officials on intelligence matters.

He. It had been previously reported by our station that NAME allegedly peddled intelligence obtained from Italian services. Since that time the above Blank official informed our Frankfurt station that ASS was alleged to have had close Communist contacts in the Rome area.
